AUTHOR INDEX

(Names appearing in capital letters indicate authors of chapters in this volume.)

A

Ablon, J., 258
Abrams, P., 322
Abu-Lughod, J. L., 185, 189, 199
Abu-Zahra, N., 190
Acevea, J., 177
Ademuwagen, Z. A., 258
Adler, K., 246
Aghemo, P., 154
Aguirre Beltrán, G., 318, 319, 324
Ahern, E., 89, 91
Akhtar, S., 316
Albrecht, G. H., 153, 155, 159
Aldrich, R. A., 257
Aldrich-Blake, F. P. G., 241
Alexander, E. R., 257, 258
Alexander, L., 258
Alexander, R. D., 157, 231
Alland, A. Jr., 265, 271
Almy, S. W., 363, 366
Altmann, J., 245, 247, 249
Altmann, S. A., 234, 237, 241, 247, 249
Alvarez, A., 43
Alverson, H., 25, 26
Anderson, B., 257, 258, 260, 261
Anderson, B. G., 319, 322, 323, 329, 335, 343, 344
Andrews, P., 152, 159, 160
Anglin, A., 85
Angst, W., 248
Antoun, R. T., 176, 177
Appel, W., 179, 198
Appleby, G., 366
Archibald, J. D., 153
Ardener, E. W., 297, 304, 308
Arensberg, C., 179, 198, 351, 354
Arndt, T. M., 361
Aronson, D., 365, 366
Aronson, D. R., 365
Asad, T., 303, 306
Asch, T., 27
Ascher, R., 156
Ashton, E. H., 152, 154, 155
Assennato, G., 277
Aswad, B., 178, 195
Atherton, J., 359, 360
Auerbach, E., 29
Austen, R. A., 226
Averkieva, I. P., 216
Aya, R., 189
Ayala, F. J., 159
Ayoade, A. A., 258
Ayrout, H., 178

SUBJECT INDEX

A

Acculturation
  as concept
    in shaping anthropology, 8, 17–18
  and mutual influence
    in Mediterranean area, 181
Adaptive significance
  of social behavior
    and sociobiology, 231
Adaptive strategies
  classification and knowledge as, 291
Adversary system
  and forensic anthropology, 100–1
Africa
  curing practices in
    and other non-Western systems, 316–18, 323–24, 329–31, 333–35, 342, 344–45
  ethnographical studies in
    and lineage theory development, 71–93
  indigenous slavery in, 216, 224–25
  Iron Age in
    Bantu archaeological evidence, 133–48
  US aid and development in, 363–65
Afro-American cultural history
  and slavery studies, 208–27
Aggression
  and selection theory
    primate field studies, 233, 245
Agrarian communalism
  decline of
    in Mediterranean area, 188–89
Agricultural research
  and extension
    and development studies, 365–66
Agriculture
  and slavery studies, 209
Algonkians
  social organization of, 76
Alliance
  in lineage theory, 87–88
Alternative medicine
  in Western countries
    growth of, 316
Altruism
  adaptive significance of
    and primate field studies, 231–32, 234–36, 239, 246
American Academy of Forensic Sciences
  formation of, 107–9
American Board of Forensic Anthropology
  and certification of experts, 111
American Indians
  ethnographic studies of
    and lineage theory development, 75–76, 89
Analytical procedures
  in archaeology and ethnohistory
    criticism, of, 134–35
Anatomy
  radiological
    and forensic anthropology practice, 115
Ancestor worship
  and lineage theory development, 74, 78
Andalusia
  as Mediterranean area, 178, 187, 194
Applied anthropology
  development of, 11, 14–16, 21
  see Development anthropology
Archaeological skills
  in forensic anthropology, 118
Archaeology
  and ethnohistory
    of African Iron Age, 133–48
    see also Bantu archaeology
Area studies
  Mediterranean, 175–200
Ashanti
  domestic and political domains of
    and lineage theory development, 86
Asia
  slavery in, 219, 223–25
Australian Aborigines
  studies of
    and lineage theory development, 78, 90
Australopithecines
  recent discoveries
    and human evolution patterns, 152–57, 163
Avoidance
  and family conflict
    in Mediterranean cultures, 191
Ayurvedic medicine
  and other traditions, 318–20, 329, 331, 341–42
Azande
  medical systems of, 275–76, 324, 329–30, 335

B

Baboons
  social relations of, 235, 237–38, 248
Baktaman
  rituals of, 300
Bantu archaeology
  and African Iron Age, 133–48
    early Iron Age, 133–38
    systemic overview, 147–48
    transition from early to late, 138–42
    Zimbabwe Culture origins, 142–47
Bantu speakers
  and archaeological evidence of Iron Age, 133–39
Basque villages
  communal rights in
    comparative studies, 189
Behavior
  and human evolution
    recent reviews of, 151
  in Mediterranean society
    and familism concept, 189–90
Behavior patterns
  analysis of
    as contribution to development plans, 351, 368–69
Being
  and knowledge, 301–3
Beliefs
  and approaches to knowledge, 298–303
  medical, 259
    and social relations, 274
  in Western science, 328
Bertillonage
  and forensic anthropology, 98–99
Biological orientation
  to illness and sickness, 279
Biomechanics
  in bipedalism studies, 154
Bipedalism
  and human evolution patterns
    recent studies, 152–57, 162–63
Blood feud
  and lineage theory development, 74–75, 78, 80

Boas, Franz
influence on discipline of anthropology, 3–5
Body weight
and evolution of encephalization, 160–61
Brain studies
and categories and universals in approaches to knowlege, 296–97, 301
Brazil
Umbanda religion in and urban problems, 334
British anthropology
role of lineage theory in, 71
Brown lung disease
and social relations of sickness, 270
Buddhist analysis
of mind
and approaches to knowledge, 290
Bureaucratic organization
and development anthropology
role of anthropologists in 349–70

C

Caribbean history
and slavery studies, 215
Carrying
as cause for bipedalism, 156–57
Case method
in ethnographic writing, 33–34
Case studies
in forensic anthropology, 99–107, 116
Castaneda's Don Juan
and approaches to knowledge, 301–3
Catalonia
as Mediterranean area, 183–84
Categories
and universals
as approaches to knowledge, 293–98
Cattle
as causal factor
in Zimbabwe state origin, 142, 147
Cattle culture
and Bantu ethnohistory, 138–48
Causality
in misfortune and illness, 327–38, 332, 334
Ceramics
of African Iron age
and ethnohistory, 133–48
style and language correlations, 133–34, 138–41, 147
Certification
of forensic anthropologists, 111
Change
and critical attitude toward medicine, 332–35
Chimpanzees
social relations of
field studies, 237–39
China
ethnographic studies in
and lineage theory development, 89
medical traditions in, 316, 318, 339–42, 345
slavery in, 223
Chinese medicine
and social determinants of medical behavior, 269, 279
Citizenship
and slavery studies, 221–24
Clan organization
role in lineage theory development, 75–87
see also Lineage theory
Class
contrasted with status, 186
Classificatory kinship terminology
and lineage theory development, 77
Class struggle
patronage in
as elite strategy, 194
Client/patron relationship
in Mediterranean politics, 179, 192–94, 199
Climate
in defining Mediterranean area, 177–78
Clinical process
as individual adaptation, 265–66
Clinical settings
for medical anthropology, 258, 265
Coalitions
noncorporate
in Mediterranean area, 179
Cognitive approach
to knowledge, 288–93
Cognitive structure
of sickness, 261
Colonialism
and anthropological approaches to knowledge, 308
and anthropology
and slavery studies, 214, 216
moral awareness of
and development decision making, 356
Color categories
and approaches to knowledge, 294–96
Common sense
and approaches to knowledge, 295
as basis of magico-religious thinking, 323
Communication
cross-cultural problems in
and community development, 354
Community life
in Mediterranean area, 179, 182, 189–90
Community studies
narrative structure of
and ethnographic writing, 31
in shaping anthropology, 10, 16
Compadruzgo system
in Mexico
and early field studies, 9
Comparative contrast
problems of
in ethnographies as texts, 49–51, 63–64
Comparative studies
of health systems, 257
Comparisons
of ethnographic data
and theory development, 59–61
Competition
in Mediterranean cultures, 190–92
Conception beliefs
and approaches to knowledge, 298
Conflict
and family
in Mediterranean studies, 190–91
Context
social
relationship to knowledge, 299
Corporate role
of descent groups, 77, 86
Counterinsurgency
and development
anthropologists' roles in, 355
Criminal anthropology
in history of forensic anthropology, 98
Cross-cultural education committee
and development of anthropology, 14

Cross-cultural validity
of psychological anthropology
criticisms of, 289–92
Cultural anthropology
American
and ethnographic writing, 30
Cultural constructs
and approaches to knowledge, 292–94
Cultural contradictions
in Mediterranean area, 180–81
Cultural values
Western medicine and science as, 322
Culture
as concept
and ethnographic interpretation problems, 45–50
in shaping anthropology, 2, 7
and knowledge
in social context, 299–300
and medicine and healing
recent books on, 257
Culture bound tests
and approaches to knowledge, 290
Curers
non-Western, 316–17, 330–32, 335–39

D

Dahomey
slavery in, 208
Dating
and human evolution
recent reviews of, 151
Decision making
in foreign aid policy
role of anthropologists in, 349–50, 354–62, 368
Dentition
and human evolution patterns, 158–60, 162–63
Descent theory
see Lineage theory
Desocialization
of medical practice
and ineffectualness, 278
Development anthropology, 349–70
analyses of development work, 362–66
in community development, 353–54
departure of anthropologists, 354–56
distinctive contributions, 366–70
general theories, 349
introduction to, 349–51
new directions in foreign aid, 357–58
rise of foreign assistance, 351–53
role of anthropologists in USAID, 358–62
Dialogical model
of ethnographic presentation, 42–44
Diet
of hominoids
and human evolution patterns, 159
see also Nutrition
Diffusion
of medical knowledge, 318–19
of slavery, 226
Discourse level problems
cognitive approaches to, 289
Disease/illness model
in medical anthropology, 264–66
see also Explanatory models
Diseases
of civilization
and medical ethnocentrism, 260–61
Display
as cause for bipedalism, 156
Doctor
declining role of
in Western medicine, 321–23
see also Curers
Dominance relations
and selection theory
primate field studies, 232–37
Dotal marriage
in Mediterranean area, 179
Dowry
in Mediterranean area, 179
Drug companies
effect in foreign countries, 333–34, 345
Drugs
as medical treatment
in Western medical tradition, 322, 343
Dualism
in culture and ideology
of Mediterranean area, 180–81
Dwight, Thomas
influence on forensic anthropology, 99

E

Ecological pressures
and primate reproductive strategies, 241–42
Ecology
as approach to defining Mediterranean area, 177–78
and development of anthropology, 18, 20
and human evolution
recent reviews of, 151
Economic anthropology
and development, 369
development of, 18–19
Economic approach
to Mediterranean area, 182–84
Economy
and slavery studies, 209, 212–13, 215–22
Efficacy
of medical practice, 277–78, 280
Electromyography
in bipedalism studies, 154
Emotion
in ritual
and approaches to knowledge, 300
Empiricist approach
to anthropology of medicine
critique of, 259–61
Encephalization
and human evolution patterns, 160–62
and parturition, 153
Energy expenditure studies
and evolution of bipedalism, 156–57
Ethnocentrism
in anthropology of medicine, 260–61
in approaches to knowledge, 289–90
